Sat, 07 Jul 2018 18:12:00 GMT - Innovation can be defined simply as a "new idea, device or method". However, innovation is often also viewed [by whom?] as the application of better solutions that meet new requirements, unarticulated needs, or existing market needs. Such innovation takes place through the provision of more-effective products, processes, services, technologies, or business models that are made available to ...
