This special edition completed with other document such as :

blockchain revolution pdf -

Wed, 10 Oct 2018 00:48:00 GMT - A blockchain, originally block chain, is a growing list of records, called blocks, which are linked using cryptography. Each block contains a cryptographic hash of the previous block, a timestamp, and transaction data (generally represented as a merkle tree root hash).. By design, a blockchain is resistant to modification of the data. It is "an open, distributed ledger that can record ...
