Sun, 14 Oct 2018 19:13:00 GMT - Column. The Alexander Column was designed by the French-born architect Auguste de Montferrand, built between 1830 and 1834 with Swiss-born architect Antonio Adamini, and unveiled on 30 August 1834 (St. Alexander of Constantinople's Day). The monument is claimed to be the tallest of its kind in the world at 47.5 m (155 ft 8 in) tall and is topped with a statue of an angel holding a cross, as a ...

Fri, 12 Oct 2018 08:38:00 GMT - Bloomberg quoted Jennifer Wilcox, the James H. Manning Chaired Professor, chemical engineering, in this article.â€œThereâ€™s no question that permanent removal of carbon dioxide from the air will be necessary to meet our climate goals, but it should not be seen as a replacement for the less costly approaches of increased energy efficiency and mitigation,â€
