Fri, 12 Oct 2018 18:32:00 GMT - Life is a characteristic that distinguishes physical entities that have biological processes, such as signaling and self-sustaining processes, from those that do not, either because such functions have ceased (they have died), or because they never had such functions and are classified as inanimate. Various forms of life exist, such as plants, animals, fungi, protists, archaea, and bacteria.

Mon, 08 Oct 2018 12:54:00 GMT - A banyan, also spelled "banian", is a fig that begins its life as an epiphyte, i.e. a plant that grows on another plant, when its seed germinates in a crack or crevice of a host tree or edifice. "Banyan" often specifically denominates *Ficus benghalensis* (the "Indian banyan"), which is the national tree of the Republic of India, though the name has also been generalized to denominate all figs ...
