Tue, 06 Sep 2011 23:59:00 GMT - The speakers in the AX2/212 were not capable of handling the load, from the beginning. You should have fixed this problem. At the very least, do the proper research to be able to make a sound recommendation. In the future, I will not be making any sound recommendations on your behalf, either.

Sun, 24 Jun 2018 09:16:00 GMT - Line 6 has not done itself justice since then in my honest opinion, unless you wanna spend the big bucks on a Vetta II. I now own my original AxSys 212 and three AX2 212's- all are still kicking ass, and I have gigged on them at least three weekends a month since '98 and some tours as well. You can still find some on Ebay or Craigslist in great ...
