This special edition completed with other document such as :

the geologic time scale pdf -

Sat, 13 Oct 2018 21:30:00 GMT - The geologic time scale (GTS) is a system of chronological dating that relates geological strata (stratigraphy) to time. It is used by geologists, paleontologists, and other Earth scientists to describe the timing and relationships of events that have occurred during Earth's history. The table of geologic time spans, presented here, agree with the nomenclature, dates and standard color codes set ...

Geologic time scale - Wikipedia -

Thu, 07 Jun 2018 23:55:00 GMT - Geologists have divided Earth's history into a series of time intervals. These time intervals are not equal in length like the hours in a day. Instead the time intervals are variable in length. This is because geologic time is divided using significant events in the history of the Earth. Eons are ...

Geologic Time Scale - Geological Time Line -

Tue, 09 Oct 2018 11:55:00 GMT - One of the first scientists to understand geologic time was James Hutton. In the late 1700s, he traveled around Great Britain and studied sedimentary rocks and their fossils.
